***Annual Fall
Conference:
The Single Ventricle***

***Saturday,
October 27, 2007***

**Best Western Boston
The Inn at Longwood Medical
Boston, Massachusetts**

***Annual Fall Conference:
The Single Ventricle***

October 27, 2007

Program Description

This program was designed to provide a variety of topics pertinent to the care of patients with single ventricle physiology, including anatomical variations of single ventricle, innovative interventions, and complications associated with single ventricle lesions. True to our mission to support the development of new speakers, there will be several abstract presentations which focus on contemporary pediatric cardiology nursing issues. The breakout sessions will provide an opportunity for a hands-on look at the variations in single ventricle anatomy in the Cardiac Registry, as well as an opportunity to review current management of complications of single ventricle.

This year, our annual meeting is being held at Children's Hospital Boston. At the conclusion of the meeting, tours of the new Cardiovascular Program facilities at Children's Hospital Boston will be provided.

For directions and hotel accommodations, contact the The Best Western Hotel directly at:

www.bestwestern.com or 1-800-468-2378

Mention that you are attending the NPCNA Conference to book a room at the conference rate of **\$189.00** per night plus taxes. The discounted room rate is available until **September 15, 2007**.

Coming with a group?

With 5 paid registration fees, the 6th is free. To qualify, all registrations must be received in the same envelope.

For conference information, please contact:

Lisa McCabe, Program Co-chair
